Developers Summary: Website must have consistent theme and layout. Four page website (Requirements will appear on its own page) HOME, SUV, SEDAN, TRUCK, Inventory Page Create a logo. Responsive Design, Use of images, HTML, (optional)

INVENTORY PAGE(5)

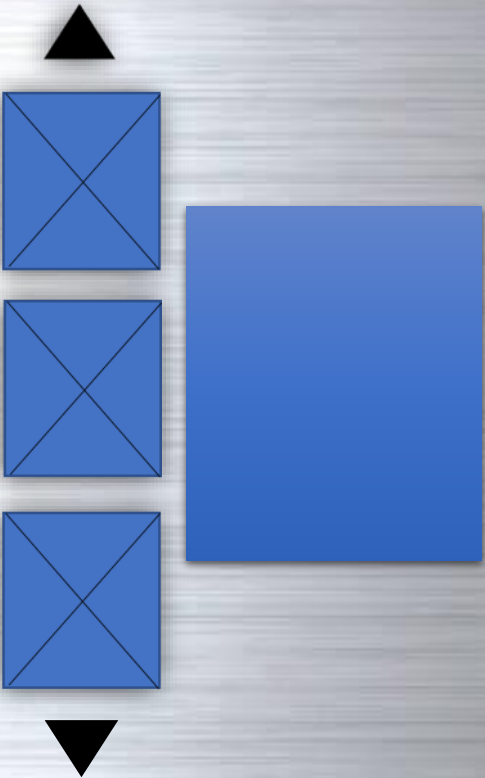

Select a particular make
This page must contain a
responsively designed
grid or table that displays
an inventory of each
vehicle.

Table/Grid will display
the make, model, color,
and price for each
vehicle. The data for this
should be obtained by
accessing the real
manufacturing data. You
can choose 15 vehicles
of your choice to display.
